COMPANY INTRODUCTION

Freshis is a Korean fresh produce export company headquartered in Jeju Island, actively trading with over 20 countries worldwide, with key products including citrus fruits, shine muscat grapes, strawberries, pears, kiwi, and winter radishes. The company leverages innovative CA (Controlled Atmosphere) container technology to extend the freshness and export season of products like Jeju tangerines and strawberries, successfully shifting strawberry exports from costly air freight to more competitive sea shipping. As Jeju Island's only specialized trading company, Freshis supports local food producers in entering global markets, operating dedicated "Jeju Pavilion" promotional events in the US, Singapore, Dubai, Mongolia, and Hong Kong.

PRODUCT NAME

- Jeju Mandarin

PRODUCT INTRODUCTION

Jeju Mandarin have golden colors, unlike Southeast Asian citrus fruits that are green, and export competitiveness is high as Southeast Asian and Chinese cultures prefer golden colors. Mandarin have the advantage of preservation and mobility, so they can be eaten without much influence on the place and time, and they can be eaten without tools. A sugar content of 10 to 11 Brix is usually formed, with an acidity of around 1%, and the sugar content conditions can be adjusted according to national characteristics.

Hyunong Fresh Co., Ltd. is a South Korean agricultural export company specializing in premium fresh fruits including pears, shine muscat grapes, strawberries, persimmons, kiwi, and more. Based in Jangseong, Jeollanam-do, we work directly with trusted local farms and manage quality control from packing to shipment. We currently export to 13 countries across Southeast Asia, East Asia, and North America. Backed by a seasoned team with years of experience and strong teamwork, we have built a trusted reputation for delivering top-quality Korean fruits. We value long-term partnerships with our buyers and are dedicated to growing together through reliable supply and consistent quality.

PRODUCT NAME

- Korean Pear (Singo Pear)
- Shine Muscat Grape

PRODUCT INTRODUCTION

Our Korean Singo Pears are known for their crisp texture, high juice content, and refreshing sweetness. Carefully harvested and packed to maintain freshness, they are a premium choice for discerning buyers worldwide. Our Shine Muscat Grapes feature a rich, aromatic flavor with firm, seedless flesh and an edible skin. Grown under optimal conditions in Korea, they offer exceptional sweetness and quality that set them apart in the global market. Both products undergo rigorous quality inspection and cold-chain management to ensure they arrive in perfect condition.

SLSC aspires to be a small but strong company, pursuing sustainable growth in the global food market. Currently, with a primary focus on seafood, we are actively engaged in marketing activities across Europe, the Americas, Asia, and Africa, while continuously expanding our business into a wider range of product categories beyond seafood.

As a specialized trading company in the fisheries sector, we serve as a bridge for domestic processing plants that face challenges in export environments, helping them access global markets. At the same time, we are committed to developing new products that comply with international import and export regulations, thereby promoting the consumption of Korean seafood worldwide. Beyond simple trading, we aim to build a safe and fair global food supply chain. Through ethical and sustainable sourcing, we continue to earn the trust of consumers around the world.

PRODUCT NAME

- FROZEN PACIFIC OYSTER
- FROZEN SEAWEED

PRODUCT INTRODUCTION

FROZEN PACIFIC OYSTER: This product is made from oysters farmed along the southern coast of Korea and processed in frozen form. Depending on buyer requirements, it can be supplied in various formats, including whole shell oysters (both shells intact), half shell oysters (one shell attached), and oyster meat (fully shucked). We also offer customized small-pack packaging tailored to buyer needs, which serves as a key point of differentiation.

Frozen Seaweed Salad: A ready-to-eat product that can be consumed immediately after thawing. Available in a variety of flavors, including original, yuzu, and wasabi. Produced in a Vietnam-registered facility.

Roasted Seaweed: Made from high-quality Korean raw seaweed. Suitable for sushi and gimbab. For orders above the MOQ, customized packaging with the buyer's own design is available.

MAUMIGA is a Korean frozen rice cake (Tteok) manufacturer and exporter with over 53 SKUs, offering an 18-month shelf life — exceeding industry standards. Our products are certified Halal, FSSC 22000, HACCP, and Vegan, ensuring the highest levels of food safety and compliance for global markets. With export experience spanning over 200 buyers across Asia, North America, Europe, and the Middle East, MAUMIGA is committed to bringing authentic Korean rice-based wellness snacks to the world.

PRODUCT NAME

1. Castella Chocolate Ricecake
2. Banana Ricecake

PRODUCT INTRODUCTION

1. Castella Chocolate Tteok: A soft and chewy Korean rice cake filled with rich chocolate and wrapped in a fluffy castella sponge layer. A fusion-style treat combining the traditional texture of Tteok with a universally loved chocolate flavor — ideal for consumers seeking a unique yet familiar snack experience.
2. Banana Tteok: A soft Korean rice cake with a naturally sweet banana flavor, made with wholesome ingredients. Light, chewy, and subtly fruity, Banana Tteok offers a clean-label snack option well-suited for health-conscious consumers across Southeast Asian markets.

COMPANY INTRODUCTION

We are a leading confectionery and snack distributor in South Korea. Our main products include candies, jellies, and snacks. We primarily focus on convenience store channels while dealing directly with all domestic distribution networks. Internationally, we export our products to 15 countries across Asia, Europe, and the Americas.

PRODUCT INTRODUCTION

- 1. Cotton Candy Cake**
Cake-shaped cotton candy.
Features vibrant 5-color visuals combined with a variety of fruit flavors. Manufactured in a rolled design, offering an outstanding visual effect of the cross-section when sliced like a real cake. A trending social media (SNS) item perfect for creating unforgettable memories at events, parties, and anniversaries. Produced in reliable facilities certified by KMF Halal, HACCP, and FSSC22000. Highly convenient for distribution, featuring secure packaging and an 18-month shelf life.
- 2. Sour Cotton Candy**
3-color rolled cotton candy. A super sour cotton candy that sets itself apart from conventional sweet cotton candies. Features a compact size and a built-in hang hole for excellent portability and easy retail display. Produced in reliable facilities certified by KMF Halal, HACCP, and FSSC22000. Highly convenient for distribution, featuring secure packaging and an 18-month shelf life.
- 3. Kitty&Puppy Marshmallow**
Adorable cat and dog-shaped marshmallows. Featuring universally loved designs: cat faces and paws, alongside dog faces and cute bottoms. A fun treat that can be enjoyed on its own as a daily snack or as a delightful topping for hot beverages. Certified Halal (Hong Kong) and features a long shelf life of 18 months.

COMPANY INTRODUCTION

Unique Biotech Co., Ltd. is a company specializing in propolis with antibacterial, antioxidant, anti-inflammatory, and immune enhancing effects.

Unique Biotech Co., Ltd. has developed a 'water-soluble propolis manufacturing technology' that does not contain any alcohol and does not use any emulsifiers or chemical additives, and produces all products using this technology. In addition, we have recently developed the world's first technology to manufacture 'water-soluble propolis powder' that dissolves well in water, and are mass-producing it. Water-soluble propolis liquid and powder made with this technology are pure propolis that has a mild taste and fragrance and does not use any substances that may be harmful to the human body. It is a product that can be safely consumed by children, the elderly and patients, and can be applied to various products such as food, medicine, cosmetics, household goods, environmental products and feed.

PRODUCT NAME

- UNIBEE Delicious Propolis Jelly

PRODUCT INTRODUCTION

A delicious propolis health functional food in jelly form that can be easily consumed without water

- Manufactured in a GMP (Good Manufacturing Practices for Health Functional Foods) certified by the Ministry of Food and Drug Safety
- Selected as a next-generation world-class product, a product selected by Brand K
- A refreshing and cool Shine Muscat flavor that can be enjoyed by anyone of any age or gender, and is easy to carry, so it can be consumed anytime, anywhere
- It can help with antibacterial action in the mouth
- Produced with self developed water-soluble propolis powder manufacturing technology
- Manufactured by convergence of 5 patented technologies
